## Benefits

**The Swimfit Challenge is staff driven - which is logistically simple for your corporate entity.**

Staff support and encourage each other

- Opportunity for disconnected staff to meet with a fitness/health goal (staff with goals are more engaged and better able to manage their emotional/mental wellness)
- Can be achieved in locations that suit staff (local pool or beach) and can be easily combined with and complement existing health and wellness programs – diet, meditation, biometric screening, fitness classes, health coaching
- Can be extended to corporate clients and staff partners, children and family
